

*Christmas carols in the night, those sweet refrains we sing  
To celebrate the joyous birth of Christ the new born king  
While children from around the world, wait in anticipation of the night  
“It must be magic,” is all the little children can say with wonder and delight*

*Looking through a child’s eyes, they see the Christmas tree  
Blinking lights and ornaments too, presents for you and me  
While Santa takes them on his lap, he asks his famous request  
“Have you been good all year long little one?” . . . is certainly put to the test*

*Gifts of gold, frankincense and myrrh the wisemen gave with love  
To this babe in a manger, He is the peace from above  
As the shepherds watch their flocks by night they hear the angels say  
“Peace on earth, goodwill to men” and to Bethlehem they went on their way*

*So this Christmas with our spirits raised high and our hearts full of love  
Let’s not forget the magical mystery from above  
And as we gather ’round the hearth with our family and our friends  
A message of Christmas joy and peace to each of you I send*
