

YOUR WARRANTY

From the beginning . . . a spunk of love brings forth cries from Mother's body for all to hear
Babies: Cry, laugh, sleep, eat, po-po, sleep some more and . . . soon the years evolve with families cheers
A message from our Father on high makes its circuitous route from God's mouth to our ears
"I love you my children as I love my only Son . . . now go live out your warranty among your peers!"

A warranty – not with God, but with each other, to create a world of peace and love
In order to listen and respond to the words from our heart and soul, and to meditate on the gifts from above
How interesting that we are here involuntarily and uninvited for such a very short time
Why have a warranty . . . when our existence is a second of time in the cosmic clock of the planets' rhyme?

All the ancient Prophets, Moses & then the Messiah . . . came forth to bring news for all to hear
A message of everlasting hope and peace for a continuing weary world to cheer
A covenant between God & His people: A warranty based on love and hope for all our brothers and sisters
throughout time

This warranty among us . . . to those past and present . . . is the fabric of our souls expressed in the sacred bread and wine

During the Holiday Season, it is natural to express our love and joy for all those in our space
But the real test of the warranty happens at any other time of year, when the Yule Tide season is not in place
In the bleakest mid-days of Winter, or the dog-days of Summer, or any other time of year . . . the warranty is still in effect
And our ability to respond in kind, is the true test of our devotion and love, and a good measure of our inner respect

As always, this Christmas Season I offer Holiday Wishes to those both near and far
Perhaps, we can take a moment and go outside to look at the heavens and imagine the Bethlehem Star
It is there you will find a copy of the Warranty, for all to see and ponder in our heart
And always taking time to reflect on the Living Warranty, and how we can do our part
