

A MESSAGE FROM YAHWEH

In modern times like these, it comes as no surprise
That messages from Yahweh are crystallized
In forms quite rare...yet for all of us to see
So this Christmas, take heart to this prophecy

We are all God's children and know His message of peace
Yet sometimes, this narrow road seems hard to keep
But wait! A message from Yahweh bears our witness
A flaming tree, like the shining star of
Bethlehem beckoning the wise men to see

The message is clear and the time will never cease
Only through love can we build a bridge of peace
Let's open up our Christmas hearts all year through
And do unto others as you would have them
do unto you

So this Christmas with our spirits raised high and
hearts full of love
Let us take heed to this cosmic message from above
