

# FOR THE HOLIDAYS . . .

*A cosmic and mysterious force evolves around the concept we call time  
Energy and matter exist as one, from the structure of atoms . . . to vintage wine  
Einstein pondered the speed of light, and from this . . . The General Theory of Relativity  
E=MC 2 (ENERGY = MASS X CIRCUMFERENCE SQUARED) is actually . . . Merry Christmas Twice!*

*Quantum Physics and the New Age has attempted to redefine the way we think about Gods' universe  
Super space and matter - atoms colliding - entropy - black holes - the big bang . . . can be a blessing or a curse  
Yet even in our day of knowing all; The blessed mystery of the birth of Jesus to a virgin from Galilee  
And the resurrection of Jesus . . . goes beyond time and space, and is an event for all people of every era*

*For 2000 years Scholars have tried to explain the words of the Angel at the tomb . . . "He has been raised"  
And even pondering Jesus as the Son of God . . . that Jesus was and is God . . . can lead our brains into quite a ma.  
Perhaps, E=MC 2 or What existed before time? . . . would be much easier to explain than the divinity of the Lord  
But no computer models, giant microscopes or satellites are needed to know the answer is found in one word*

*How did the Ancient prophets and seers know in their hearts to make haste and prepare the way?  
Even the great Moses spoke to God in the form of a burning bush, and then kept quietly at bay  
Faith . . . the only answer and question, that we find in all thoughts of the worlds great religions  
All the treasures with no faith . . . is an empty prayer: A mountain of faith and no treasures . . .  
happy are those with none*

*So this Holiday Season it is E=MC 2 . . . or MERRY CHRISTMAS TWICE  
And I hope this gastronomic Quantum Energy Soup you will find full of spice  
And as time flies backward and forward, up and down and sideways toward 1995  
I'll wish for you and yours a prosperous New Year and a joyful and cosmic time!*
