

THE RENAISSANCE

Heralding the height of creative and intellectual
enlightenment
Where philosophy, the arts, and science strive to
new accomplishments
The Italians lead the globe from the center
of civilized mankind
To teach and learn about ALL things in the grand
cosmic design

The Greek City State is truly something beyond compare
Indeed, the Orientals with silks and beautiful temples
is quite rare
And the Arabs ... with a culture that reaches to the
beginning of time
But for the Italians, the Renaissance is always sung
in perfect rhyme

Of noted Italian descent is Frank Simonetti - the most
famous and versed one of all
Spewing forth business accolades quicker than anyone else
can recall
Traveling the horizons to study its' people and seek the
finest treasures
No better man you'll find on Earth to let you know of
her pleasures

All of us who know Frank - we will love no one more
than he
Dante loved Beatrice, Frank loves Mim and his world
evolves around this she
Together with vision and insight they will capture the
spirit of all
Who enter their home and explore their hearts to live
the Renaissance call.
