

From God

The start of the seventh Millennium records 6000 years of Whisperings from God. . .
to his beloved children among the fold

Since the beginning of our gazing at the heavens and its' celestial content,
we have attempted to square the round hole

We have pondered the Whisperings from God: From the fire at the edge
of our cave dwelling to our global village with a .com file

Today we reflect on God and know him through Jesus
and other prophets of love that we can now multiply

Our Pre-historic kin had hundreds of Gods that ruled,
and helped set the tone for the spirit and letter of the law

Looking to the sky was the best place to find God then,
and quiver in fear with each new day and dawn

Slowly and evolving throughout the ages, God spoke through a host of prophets. . .
that love of God and neighbor is the theme

The Whisperings from God to Jesus and then to all of us. . .
is that God's unconditional love will set us free

But to hear the message from God we must be still. . . not a word. . .
in order to listen for the heartbeat from the Trinity

It starts at baptism when the Holy Spirit is poured into our hearts
and throughout our life in perfect simplicity

But at times we think so hard, pray so hard, and trust so little. . .
that it's a challenge to hear for all the static on the lines

Yet the dial is always set for perfect reception from the big transmitter in the sky
and the connection is guaranteed to be fine

The earth is now moving at digital speed time
and the rush of a busy home challenges one and all

As this Jubilee Year unfolds perhaps we can hear a message from God
to take notice of our Baptismal call

We only come around once to make a difference and the clock pushes
GMT on. . . just one tick-tock at a notch

So since the first Cave Dwellers decided to draw on the cave walls to express life;
so do we create and continue to keep watch

While the annual Holiday Whisperings comes to our space,
perhaps it is the perfect time to listen for a transmission from God in celebration

A heartbeat from parts unknown is Whispering about Jesus and Peace on Earth,
Goodwill to All and the new creation

As always. . . Warm and Cheerful Wishes to you and yours in this Sacred Jubilee Year
And a Joyful and Peaceful New Year full of bountiful good cheer!
