

Paradise

*Come gather round quickly to hear the glad holiday news
This year ... passports to Paradise, so many places to choose
No requirements necessary, just love and peace to all
So pick up your passport and go with the spirit to the mystery call*

*Come along to the ideal holiday place with your dreams to share
All the arrangements are first class ... perfect beyond compare
Stay throughout the holidays, everyone does it that way
This year the passport date has been extended ... forever and a day*

*So many times I've thought to go to this place, you see
Full of joy and gladness and magical moments, just for you and me
But the passport was always out of date ... something a miss
This year, holiday plans started early, so the passports are without a hitch*

*A gift from the child, so innocent and full of grace
Such a treasure for all - even without asking it's ours to take
As always and throughout the ages, love is only passport seal
So this new year with passport in hand, off to our Paradise so real*

*Glad holiday wishes to you I heartily extend
Remember that love is the only passport to recommend
This new year as you travel to this place so fine
Just remember to send postcards and drop me a line!*
